

Capital for Colleagues selected as a finalist at 2016 UK Stock Market Awards

Capital For Colleagues Plc has been selected as a finalist in the Best Impact PLC category at the 2016 UK Stock Market Awards. These awards are now in their 6th year with the finalists being chosen by the private shareholder community and not via a submission process.

Over an 8 week period between mid-November 2015 & mid-January 2016, readers of *Shares* were asked to vote for the companies, individual directors and advisers they believe to have outshone their peers whilst ensuring true shareholder value had been created.

The winners will be determined by a judging panel of experts from across the financial community who will meet to analyse all the nominees on 4 March. The judging panel features senior individuals from the world of corporate finance, law, financial services, accounting, public relations and media.
